

# Capability Statement

A practical gateway to trusted local knowledge, qualified international partners and dependable delivery support across Africa.

## Company Overview

Kodram is a Gambian-led infrastructure delivery, support services, general trading, energy, real estate and tourism development company. Incorporated in the United Kingdom, with operating and registered offices in The Gambia and the United States, Kodram supports public and private sector clients across West Africa and the wider African market.

## Core Capabilities

- Infrastructure delivery and project management
- Procurement, sourcing and supply coordination
- Power supply systems, parts and petroleum products
- Commodities, construction goods, office supplies and electronics
- Real estate, hospitality and tourism development support
- Market entry, relationship management and commercial facilitation

## Clients and Markets

Kodram serves public sector clients, government agencies, infrastructure owners, development partners, investors, contractors and private corporations. The primary focus is West Africa, supported by regional relationships and international delivery partnerships.

## Value Proposition

Kodram brings the right people, products and solutions together at the right time. Disciplined coordination helps clients improve accountability and maintain stronger control over cost, quality, schedule and stakeholder outcomes from concept through execution.
